In this participatory session, we will come together to imagine what meaningful art structures would be like in times of social and ecological urgencies. The session will be facilitated by Punos workgroup curators Anna-Kaisa Koski and Ki Nurmenniemi. The 1-hour programme will consist of questions and discussions that will inform a shared working paper.

Pre-register for the dreaming session [here](#). Deadline for pre-registration is 19.5.2021 at 19:00.
